TUGAS!

Menghubungkan Snowflake dari Workstation

- Pertama-tama kita harus menginstall the driver Download JDBC driver pada link ini https://repo1.maven.org/maven2/net/snowflake/snowflake-jdbc/
- Lalu kita harus membuat sebuah database
- 1. buka Microstrategy Workstation
- 2. lalu pada Dossiers , klik Create a new dossiers

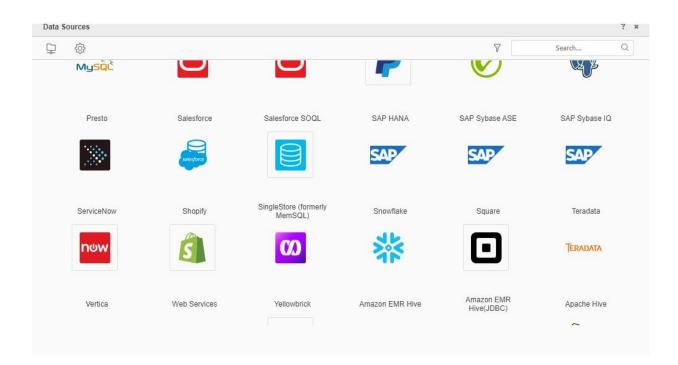

3. lalu klik new data

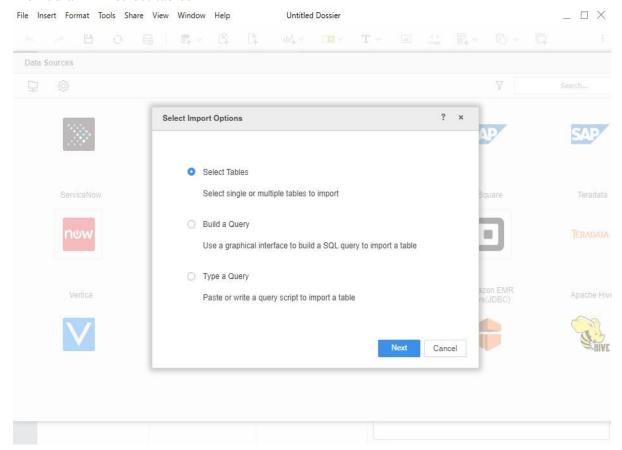

• Lalu cari Snowflake

➤ Lalu

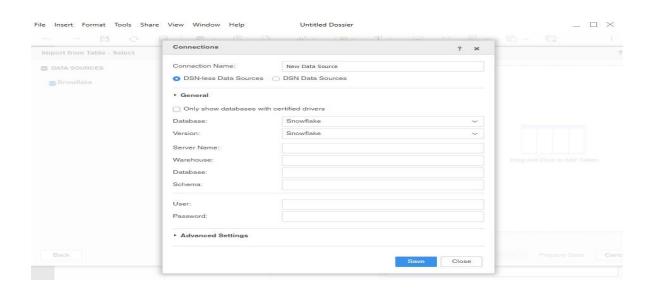

Kemudian klik select tables

➤ Lalu

• Lalu isi data source dialog hingga complete.

• Kemudian jika sudah selesai, klik save
